KM 2 -18 X

LIGHTWEIGHT INFRARED ASPHALT HEATER
(3'6" x 6'6")

PAVERS SOLUTION

The lightweight KM2-18X is easily moved to service areas previously inaccessible. The fully self contained infrared unit is a workhorse & will provide many hours of repairs using two 14kg gas cylinders. This is the perfect machine for new pavement fixes and utility cut repairs

The KM2-18X offers the operator an option to use either a single 3'-6" x 3'-3" zone or dual 3'-6" x 6'-6" zones totalling 22.75 ft² of infrared heat. This unit works well for thermoplastic installation as well as the following applications:

Potholes ● Sunken utility joints ● Pavement cracks
Reinstatements around manhole covers ● Reworking rough pavement areas
Street Print® applications

FEATURES

VALUE ADDED

- Solar Panel
- 12v Blower
- 12v deep cycle gel battery
- (2) 14kg propane cylinders

SAFETY

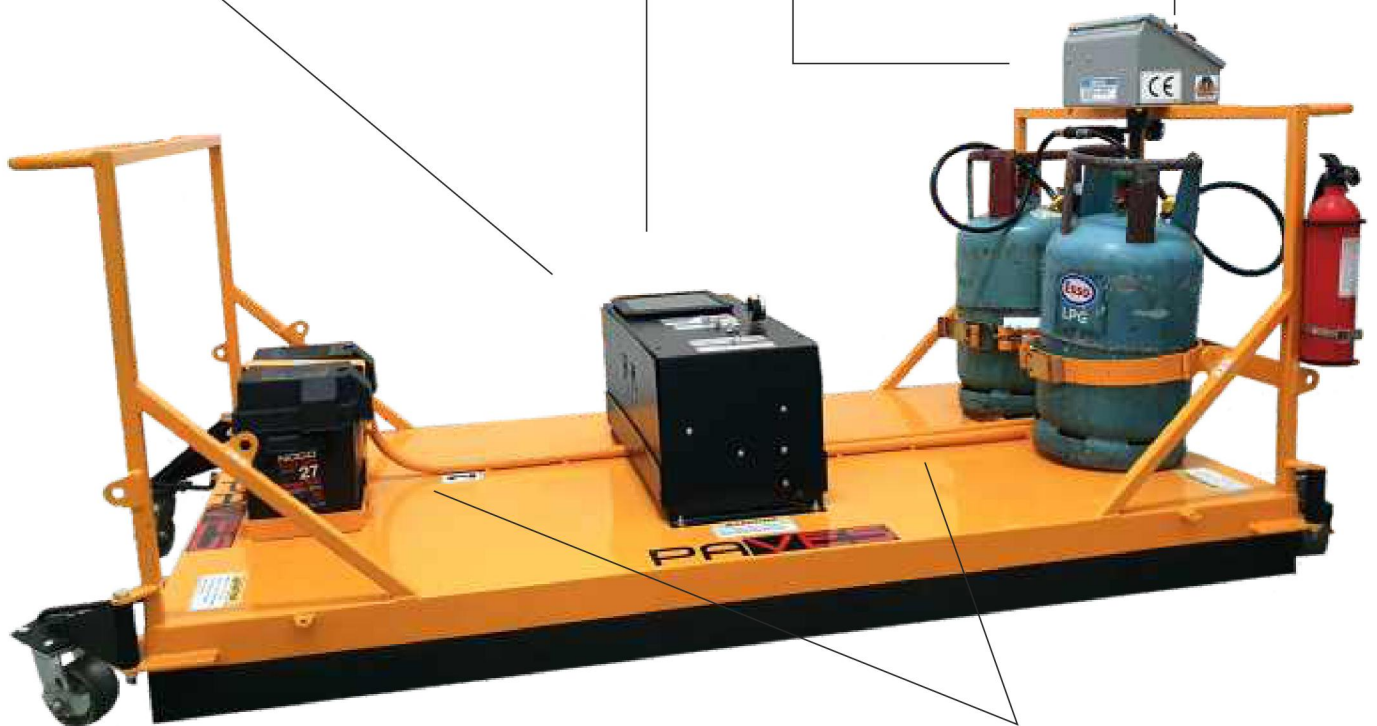

- Automatic Pilot Ignition
- Zone Selection Controls
- Emergency Stop button

EFFICIENT

- Heat cycling technology

MAINTENANCE

- Hour Meter

MANOEUVRABLE

- Independently Controlled Casters

VERSATILE

- (2) Individually Controlled 3'5 x 6'55" heating zones

SPECIFICATIONS

Overall Dimensions (L x W x H)	6'6" x 3'6" x 3.5'
Transit Dimensions (L x W x H)	6'6" x 4'10" x 44", Includes Casters
Heating Element	1" Ceramic Refractory Blanket
Heating Zones	(2) 3.3" x 3.6"
Heating Area	(W) 3'6" X (L) 6'6"
Zone Controls	Manual ON/OFF valves w/ switched Electronic Cycling
Fuel	Propane : (2) 14 kg Cylinders
Fuel Consumption	Cycled Heating - 5.44 kg. per hour
Blower	12V DC Powered
Battery	12V Deep Cycle Marine Gel
Overall Weight	185 kg
BTU Output	300,000 BTU
Pilot	Automatic, Electric Ignition
Castors	4 Pivoting & Swivel, 4" Steel
