LB 2-16

PORTABLE INFRARED ASPHALT HEATER

(4' x 4')

GREAT ENTRY LEVEL UNIT

This 4' x 4' unit offers a single operator two independent zones and 16 ft². of infrared powered performance. The heating times of this unit consistently outperform any other comparable unit on the market. This unit also works well for the following applications.

Potholes ● Pavement Cracks ● Sunken Utility Joints
Uneven surfaces ● Manhole covers

The fully self contained unit has a unique **FOLDING DESIGN** that makes it easy for transport and even easier to use.

FEATURES

SAFETY

- Automatic pilot ignition
- E STOP button
- Hour meter

EFFICIENT

- Heat cycling technology
- Enclosed battery box

- Charging Port

VALUE ADDED

- 2 (14) kg gas cylinders for faster heating

LB-2-16 UNFOLDED

VERSATILE

- 2 independently controlled Zones
- 16 ft² heating panel

LB-2-16 FOLDED

SPECIFICATIONS

Overall Dimensions (L x W x H)

51" x 51" x 50"

Transit Dimensions (L x W x H)

30" x 49" x 58"

Heating Element

1" Ceramic Refractory Blanket

Heating Zones

(2) 2' x 4' Heating Zones

Heating Area

4' x 4' Heating Zones (16 Sq. Ft.)

Zone Controls

On / Off with Switched electronic cycling

Fuel

(2) 14 Kg gas cylinders

Fuel Consumption

12 lbs. per hour

Blower

12V DC powered

Battery

12V Deep Cycle

Overall Weight

124 kg

Infrared Panel Weight

44kg

BTU Output

225,000 BTU

Pilot

Automatic, Electric Ignition
